

## Same old stuff

A song by Roberta and Charlie

**A**

**A**                    **D**                    **A**    **D**                    **A**  
Every year is just the same old stuff: There is no season that I really love.

**E**                    **D**                    **A**                    **E**  
Spring is really wet. Spring has so much rain. Spring just brings me pain.

### Chorus:

**D**                    **A**  
**Seasons come and seasons go.**  
**D**                    **E7**                    **A**  
**This is what I know: They're all stupid!**

Every year is just the same old stuff: There is no season that I really love.  
Summer is so hot. Summer makes me sweat. Summer makes me mad.

### Chorus

Every year is just the same old stuff: There is no season that I really love.  
Autumn brings the wind and clouds in the sky. Autumn makes me cry.

### Chorus

Every year is just the same old stuff: There is no season that I really love.  
Winter is too cold. Winter brings the ice. Winter is not nice.

### Chorus

**A**
